

Dear Parents,

Next week will be a short one. We have off on Monday and Thursday we will be at St. Leo's for our Confirmation retreat. We will also be visiting the book fair on Tuesday to help Kindergarten make their "wish list". Since we are not here on Thursday the 7th and 8th grade will be able to purchase any books they may want on Wednesday.

Progress Notices will be coming home in this week's Friday Folder. Please sign and return them. Most of them are very good. You will also find another Harvest Festival notice. We could still use more volunteers. Just a reminder that Chuck E. Cheese night is Wednesday October 15th from 3:00 to 9:00 PM.

Have a great weekend.

Karen Fischer

PS. If you have any concerns or questions about the Progress Notices please do not hesitate to contact me. E-mail is best and then I can find a time to call you.

Math 7 Fast Track

We are still working on multi-step equations and are having some difficulty. The quiz I had scheduled for Friday will be next week. I feel they need more practice.

Math 7

Our next focus is on measures of central tendency next week, mean, median, mode, and outliers. We will continue to review integers.

Science 7

We will continue to study Scientific Method in preparation for their Science Fair project.

Religion 7

We will finish the Ten Commandments and sins against each. The test will be Friday.

Algebra

Our next topic is applying equations. We will be working with word problems.

Math 8

Multi-step equations have been very difficult for this class. The quiz I planned for Friday I moved to next week. They need more instruction and more practice.

Science 8

We will begin exploring the Periodic Table next week.

Religion 8

The Cogat tests and problems in math took most of our religion time. We are still working on Conflict Resolution. We will finish next week.
